

PERFORMANCE SPORTS SYSTEMS MODEL 7600

COLLEGIATE VOLLEYBALL NET

Collegiate net is constructed of quality materials for easy set-up. Net features include 1" diameter wood dowel and 4" square #36 black nylon mesh for superior performance and durability. Free floating net along 1/8" diameter steel 7 x 19 cable (1,760-lbs. minimum breaking strength) allows for quick and easy centering of net about the court lines. Nylon straps with buckle hardware are used to secure net in place. Net dimensions shall be 32' length and 39" width. Top and bottom of net perimeter shall have 2-1/2" wide vinyl coated polyester hem that is doubled stitched. Sides of net perimeter shall have 3-1/2" wide vinyl coated polyester hem that is double stitched. Collegiate meets or exceeds requirements for most levels of competition.

Subject to design change and current manufacturing practices.
